ABOUT US

PBKG Design is a team of professionals with 17 years of experience in interior design and renovation.

We deliver comprehensive interior projects in Dubai, ensuring high standards of quality and a personalized approach at every stage — from concept to completion.

Realized projects in the UAE 56 743 m² in Dubai, Abu Dhabi, Sharjah and Ras Al Khaimah.

MISSION

To create unique and functional turnkey interiors that reflect the client's individuality and meet the high quality standards in the UAE.

We combine architectural thinking, innovative technology and years of experience to transform each property - from apartment to villa - into an aesthetically pleasing and thoughtfully designed space where you want to live.

INTERIOR DESIGN

The interior design section includes a comprehensive set of services covering the entire process of creating and realizing an interior space. These services provide a full cycle of work - from the initial concept to the final finishing works and furnishing.

Detailed description of the main components:

1. Development of a Complete Set of Drawings

This is the basic stage where all the necessary technical documents for the realization of the design project are created. It includes:

- Planning solutions: Schemes of furniture arrangement, partitions, functional zones.

- Electrical plans: Placement of outlets, switches, lighting devices.

- Plumbing plans: Location of plumbing equipment.

- Wall Plans: Detailed drawings of each wall, including materials, decorative elements, location of items.

- Bill of Materials: Lists and quantities of all finishing materials used.

- Custom Furniture Drawings: If custom furniture is envisioned, detailed drawings are created for its fabrication.

2. Author's Supervision

Author's supervision is the designer's control over the progress of repair and construction works. Its purpose is to ensure that the result corresponds exactly to the approved design project. It includes:

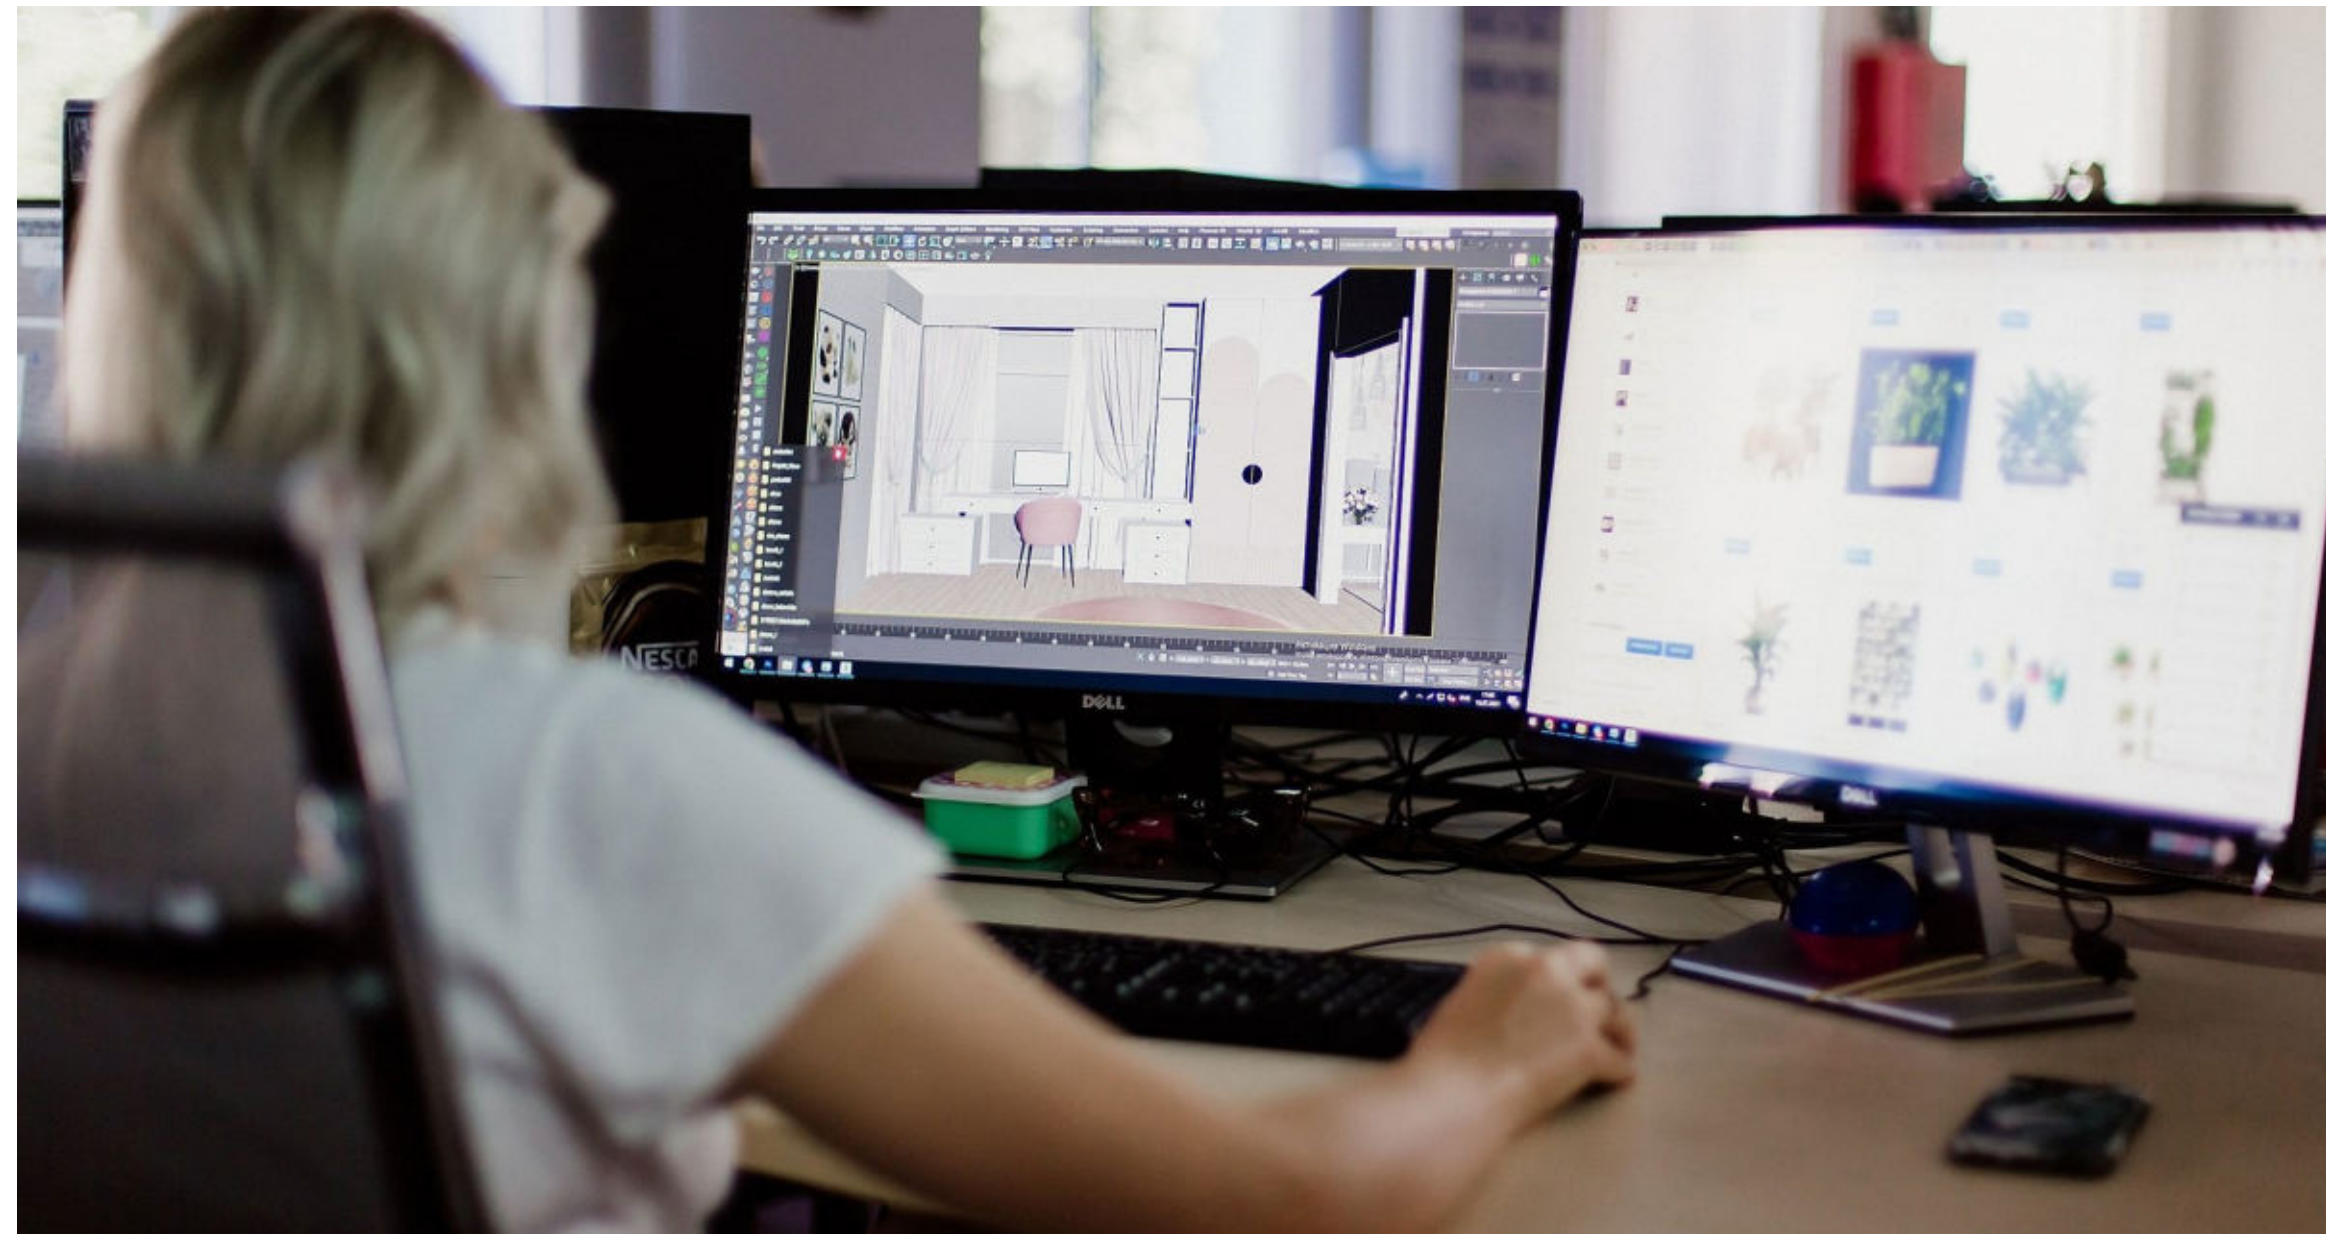

- Regular visits to the site to check the compliance of the work performed with the drawings.

- Advice to builders and contractors on issues arising in the process.

- Making operational adjustments to the project (if necessary and agreed with the customer).

- Control over the quality of materials used and work performed.

3. 3D-Visualization

3D-visualization allows the customer to see the future interior before the work begins. It is a powerful tool for:

- Creating photorealistic images of the room taking into account the selected materials, furniture, lighting and decor.

- Assessing the overall mood and style of the interior.

- Make changes to the design at an early stage, saving time and resources during the renovation process.

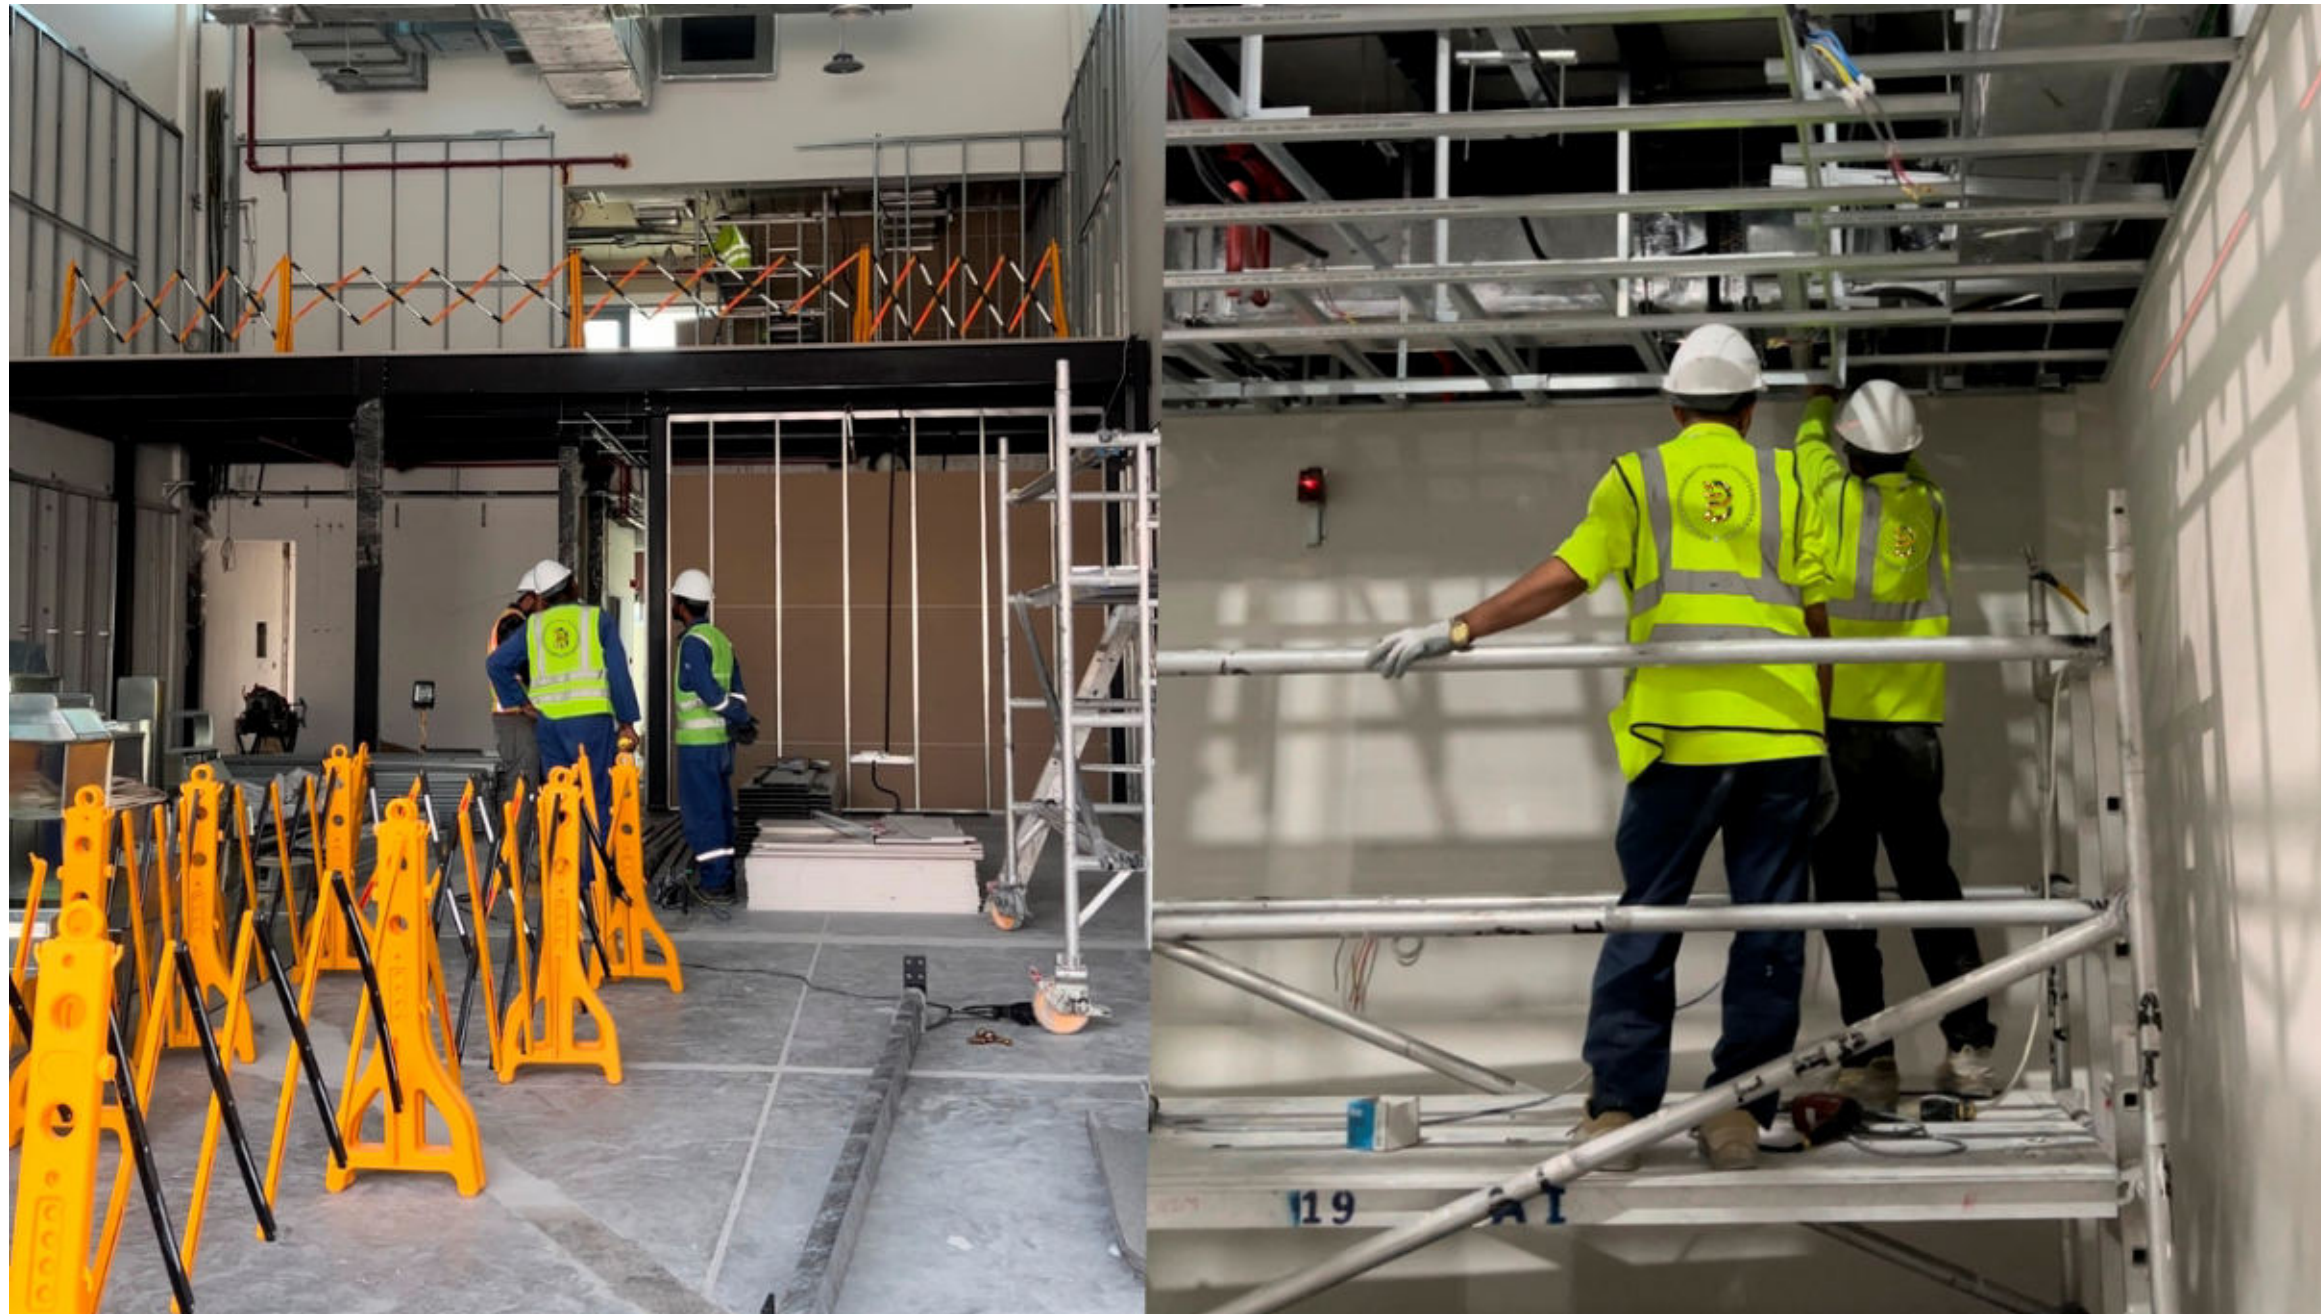

4. Obtaining Building Permits

Depending on the complexity of the project and local legal requirements (e.g. in Dubai), different building and renovation permits may be required. This service includes:

- Preparation of all necessary documentation for submission to regulatory authorities.

- Interaction with government authorities to obtain permits.

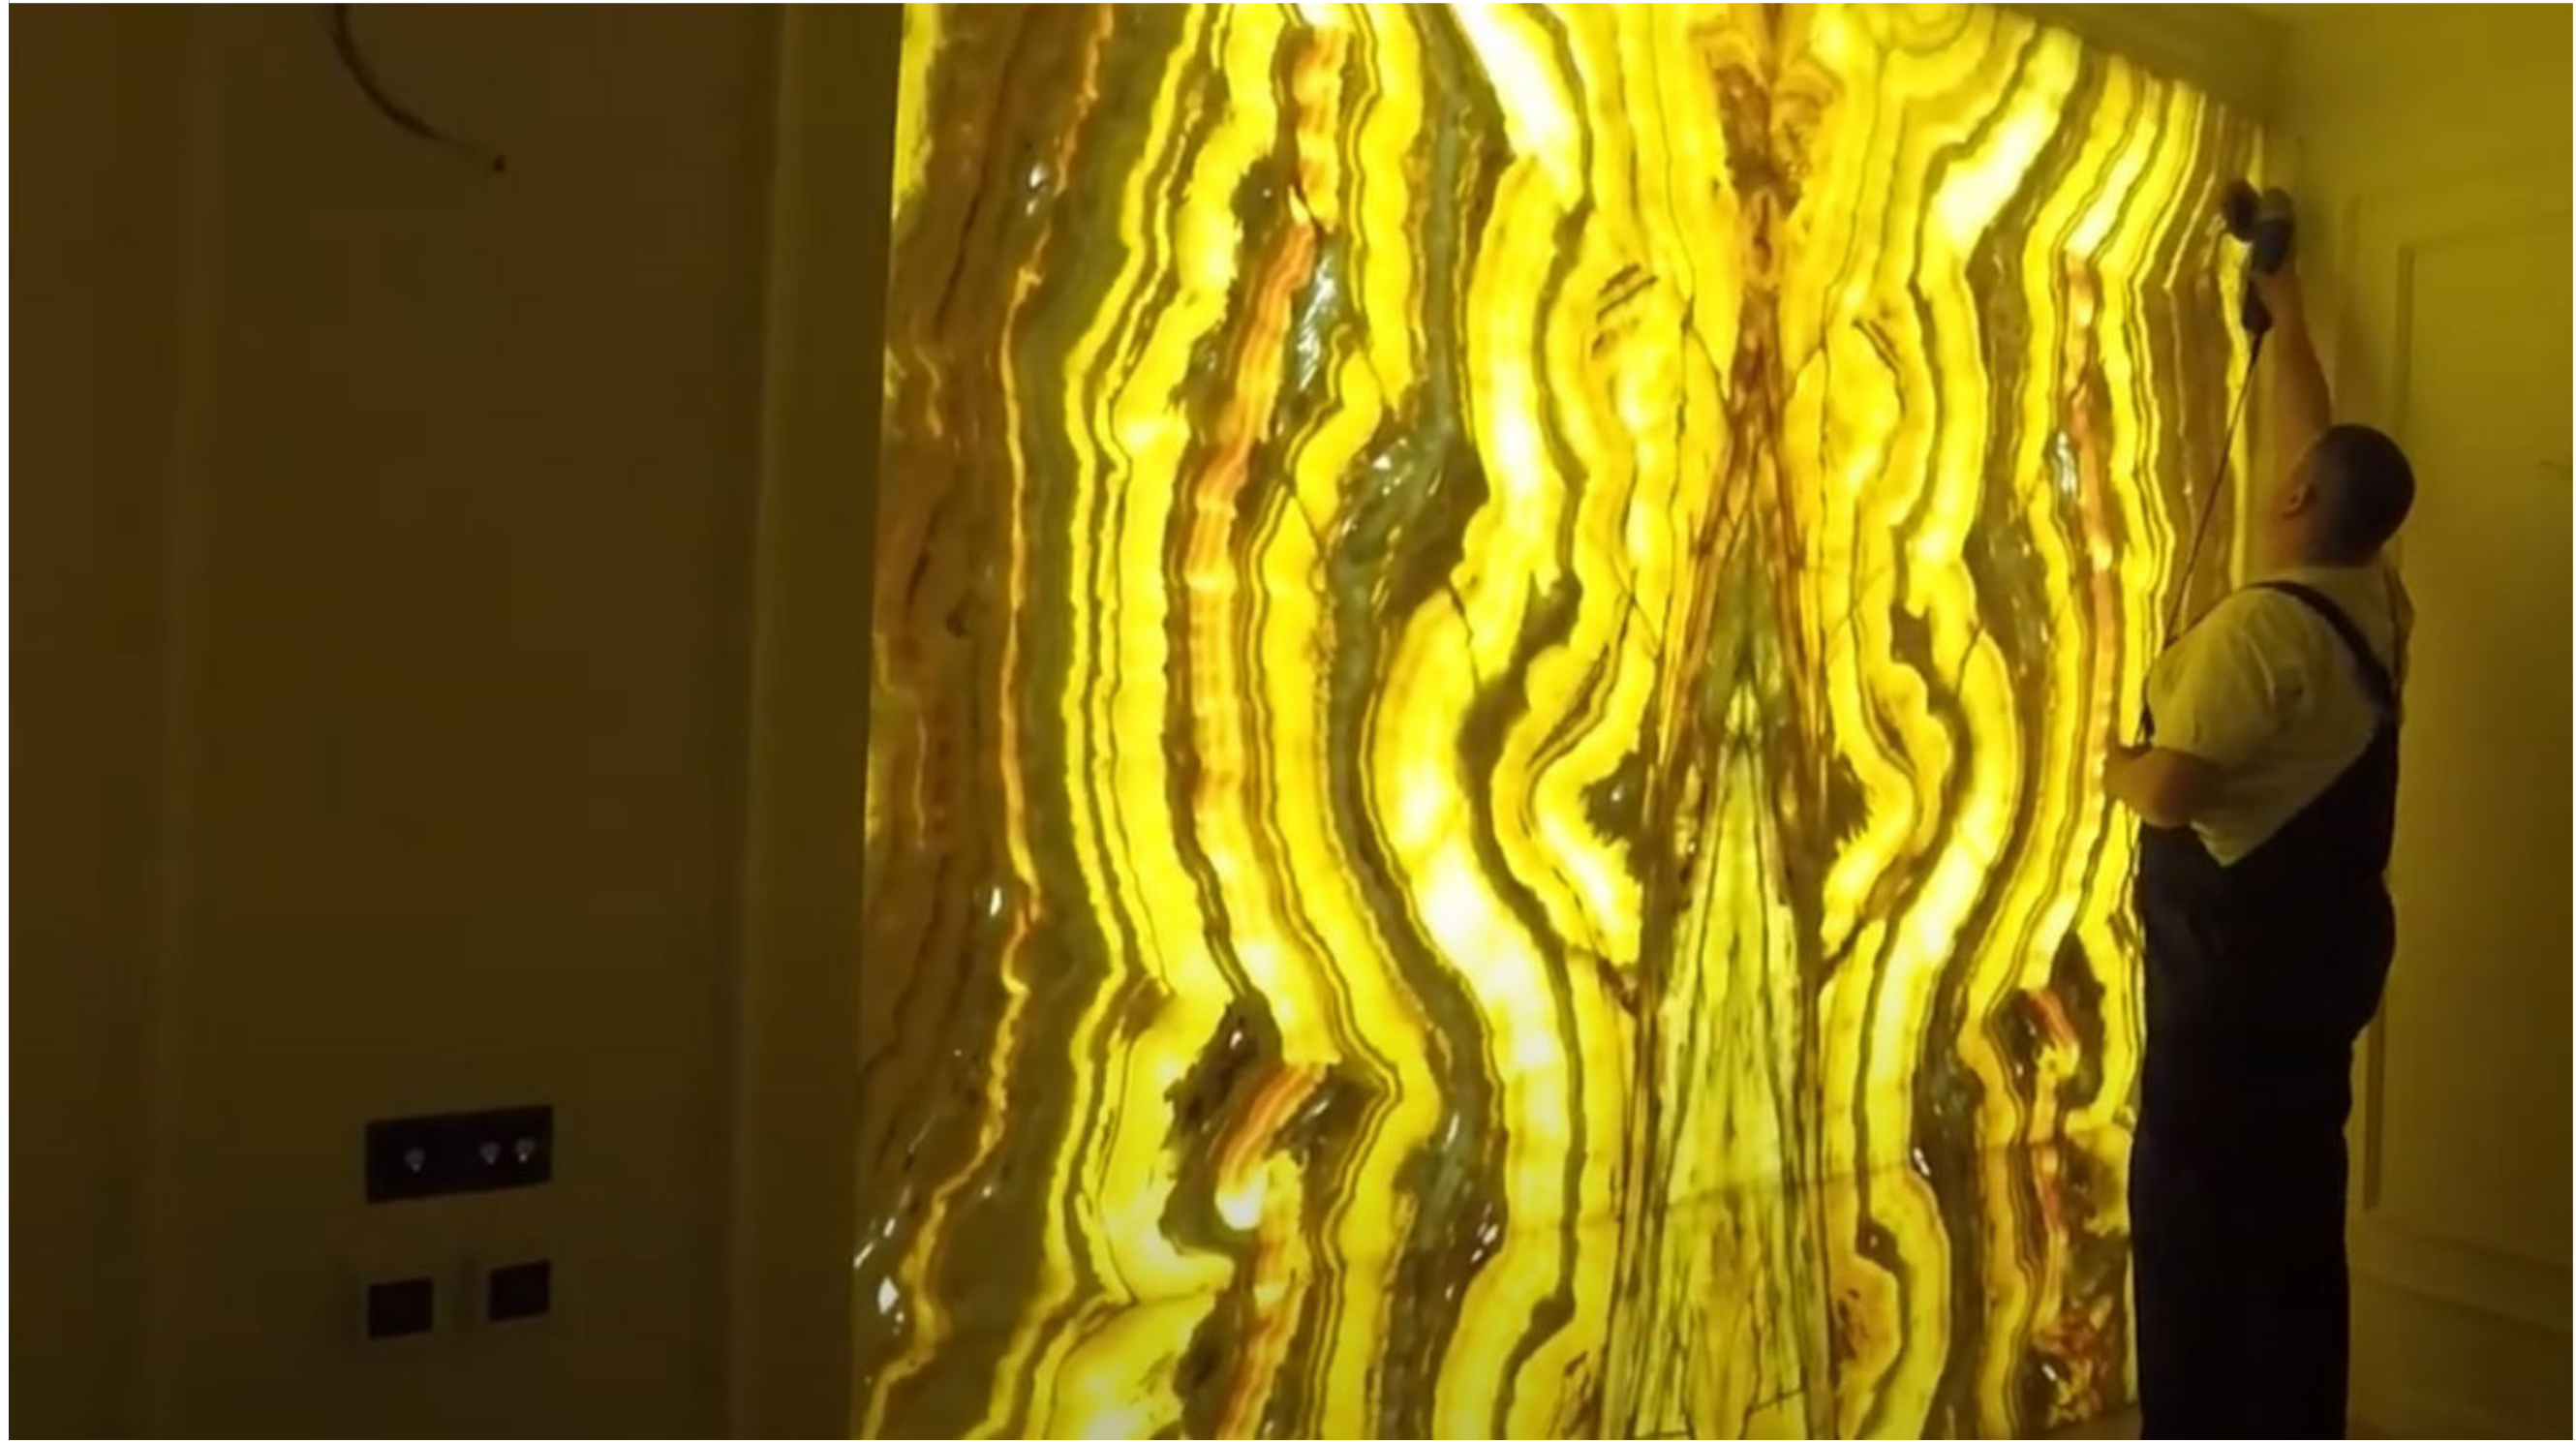

- Monitoring compliance with all regulatory and safety requirements.

FITOUT

Physical realization of the design project. PBKG Design performs all types of works with its own team, which guarantees quality control and compliance with deadlines:

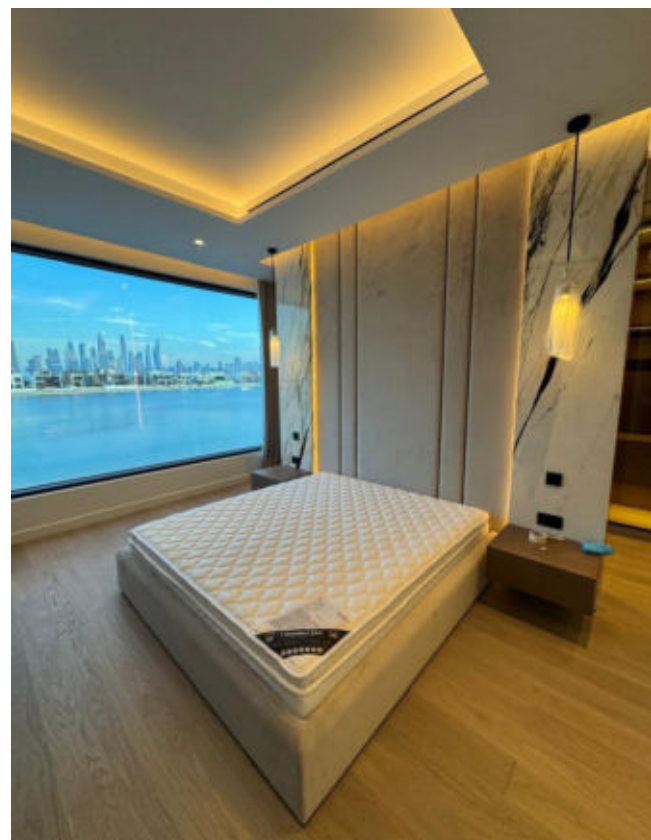

- Dismantling and installation works (erection of partitions).
- Electrical works.
- Plumbing works.
- Plastering, painting and facing works.
- Laying of floor coverings.
- Installation of doors and windows

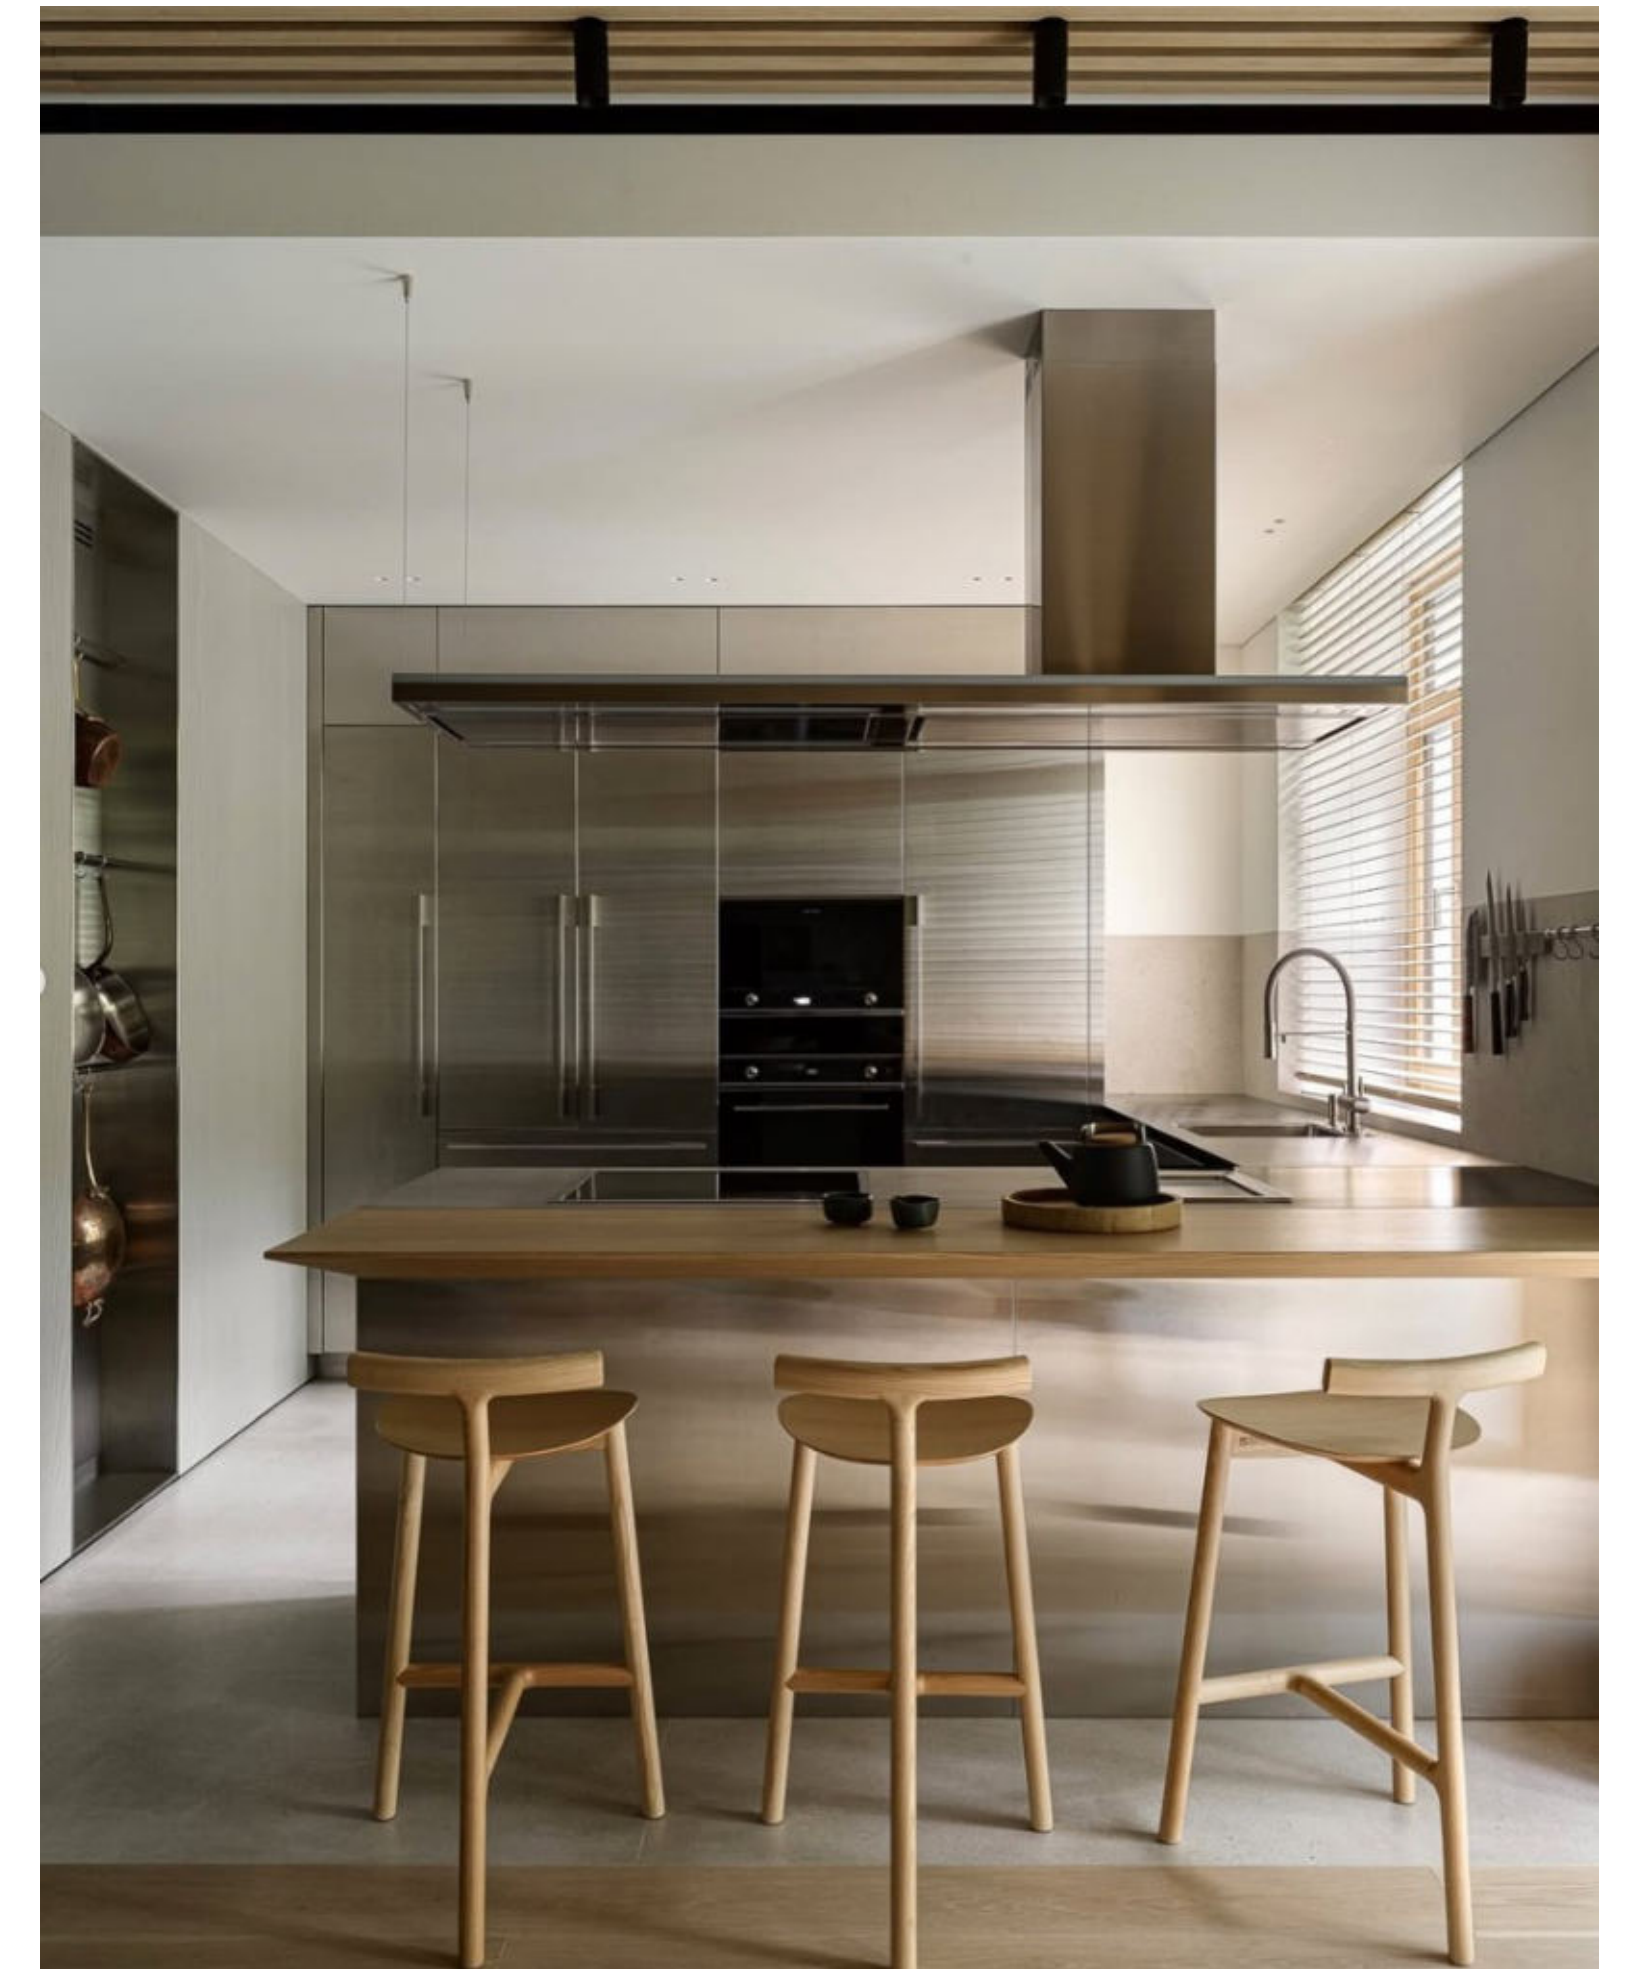

FURNITURE

Our company, specializing in the production of high-end custom-made furniture, strives to create unique and high-quality items, perfectly adapted to the specific requirements and wishes of our customers. We use only first-class materials and rely on the expertise of skilled craftsmen to ensure that each piece is not only beautiful, but also reliable and practical. Our exceptional attention to detail and unwavering commitment to excellence sets us apart from mass-market manufacturers. We are proud to offer a personalized approach that results in truly exclusive upholstered and cabinet furniture. Such as: sofas, beds, armchairs, kitchens, closets and much more

We create fully personalized kitchen cabinets designed to accentuate your lifestyle with ease and grace. Whether it's elegant marble countertops, sleek fronts or intuitively arranged shelves, every detail is designed with beauty, convenience and timeless sophistication in mind. Using durable materials and conceptual design, we design kitchens that provide inspiration both in use and when you look at them
